Restaurant & Takeaway owners replace and/or back up your existing telephone ordering process with a software and internet solution.

This solution will allow you to control all your incoming telephone and internet orders centrally, ensuring you never lose an order whilst at the same time collating and storing your customers information.

In summary, providing you with the tools to deliver exceptional customer service and make more profit without the need for more staff.

This one off investment consists of a PC based telephone ordering system using a combination of Touch Screen technology, On Screen Notepad and Caller ID with an optional Online Takeaway Ordering Website.
