unimessage[®]P3

Unimessage P3 represents a new generation in desktop communication and is the latest offer from Wordcraft International .

Following the success of Unimessage Pro for total fax messaging, Unimessage P3 is a modular solution offering total flexibility catering for different needs and budgets.

This new technology offers scalable and totally integrated desktop management of paper and electronic documents.

Unimessage P3 allows you to use fax, internet fax, document management, copying, printing, scanning and e-mail all within one solution.

Move towards greater efficiency:

View and edit different types of image files through one application

Improve productivity:

Action your messages with sophisticated routing rules whilst automatically printing e-mails and OCR faxes or other documents.

Reduce Costs:

Time delay your messages to take advantage of cheaper tariffs. P3doc alone offers huge savings, see separate brochure for more details.

Improve return of investment on your hardware:

Share up to 30 multifunctional devices across your network.

Improve the efficiency of your network:

By automatically routing messages

Training Not Required:

Incredibly user friendly not only for the administrator but also for the end user.

Make sure you have the latest in MFP communication, messaging and management solutions. For details on how to purchase Unimessage P3 visit our website on www.wordcraft.com.

Contact the Wordcraft team for a demonstration, pricing or technical specification.
